

# Ergonomist

## GENERAL INFORMATION

---

### Entity

Safran is an international high-technology group, a leading manufacturer in the fields of Aerospace (propulsion and equipment), Defense and Security. Operating worldwide, the Group has more than 70,000 employees and logged sales of 17.4 billion euros in 2015. Safran is ranked among the Top 100 Global Innovators by Thomson Reuters. Safran is also featured at the top of the "Happy at Work" ranking compiled by the website [meilleures-entreprises.com](http://meilleures-entreprises.com), as one of the most popular companies for young engineers\* and in the LinkedIn Top Attractors in France.

\*Universum and Trendence surveys

Safran Landing Systems designs, produces and supports landing and braking systems for all types of aircraft. Safran Landing Systems' expertise covers the entire product life cycle, from design and development to production and support. Safran Landing Systems works with 30 aircraft manufacturers, spanning mainline commercial airplanes, regional and business aircraft and military aircraft. Safran Landing Systems counts some 7,000 employees in Europe, North America and Asia. In 2013, the company invested 14% of its total sales in R&D to develop systems that are lighter, quieter, more robust and more economical.
